Lists, a collection you can see

NAME _____ DATE _____

> Fill this page in with your own notes as you watch the video.

What prints - the first city, or the last one?

Four cities in the list, and I ask for position 4. What happens?

What questions do you have after watching this video?

Vocab

Define these in your own words.

list

index

NOTES

Looping over a collection

NAME _____ DATE _____

> Fill this page in with your own notes as you watch the video.

The list has 8 planets. How many times does the `print(planet)` line run?

What does this print? (the `range(len(planets))` version)

What questions do you have after watching this video?

Vocab

Define these in your own words.

for loop		**iterate**	
range()			

NOTES

Asking a question inside a loop

NAME _____ DATE _____

> Fill this page in with your own notes as you watch the video.

How many times does 'hot day' print?

What prints for the first three temperatures? (same temps list, `< 70` condition)

What questions do you have after watching this video?

Vocab

Define these in your own words.

condition

filter

NOTES

GRADE 8 · UNIT 1 · VIDEO 4

Files, where the data actually lives

NAME _____ DATE _____

> Fill this page in with your own notes as you watch the video.

```
f = open("names.txt")
raw = f.read()
students = raw.split("\n")
print(students[0])
print(len(students))
```

After `f.read()`, is `raw` a list or a string?

The file has 6 lines. After `raw.split('\n')`, how many items are in the list?

What questions do you have after watching this video?

Vocab

Define these in your own words.

open()

file

NOTES

When a list isn't enough

NAME _____ DATE _____

> Fill this page in with your own notes as you watch the video.

What does `color_counts['green']` return?

What do these two lines print? (menu dictionary)

What questions do you have after watching this video?

Vocab

Define these in your own words.

dictionary		**key**	
value		**KeyError**	

NOTES

You keep writing the same thing

NAME _____ DATE _____

> Fill this page in with your own notes as you watch the video.

I call `print_summary('Books', 12)`. What prints between the dashes?

What prints when this runs? (greet function with two calls)

What questions do you have after watching this video?

Vocab

Define these in your own words.

function		**parameter / argument**	

NOTES

Charts and Graphs

NAME _____ DATE _____

> Fill this page in with your own notes as you watch the video.

Four activities, three numbers. What happens when this runs?

Both charts are saved one after the other with no clear in between. What is inside the second file?

What questions do you have after watching this video?

Vocab

Define these in your own words.

bar chart / scatter plot		**savefig**
