Looping over a collection

NAME _____ DATE _____

> Fill this page in with your own notes as you watch the video.

The list has 8 planets. How many times does the `print(planet)` line run?

What does this print? (the `range(len(planets))` version)

What questions do you have after watching this video?

Vocab

Define these in your own words.

for loop		**iterate**	
range()
