SCENE	SPRITE THE PLAYER CLICKS	BACKDROP NAME	WHAT HAPPENS, AND HOW IT ENDS
Choice one			
Choice two			

Build the scripts

Fill in the blanks. Each arrow is the next block. Make one **Path** for each message.

```
Title   when green flag clicked → switch backdrop to [_____]
        → say [_________________] for ( ___ ) secs
Click   when this sprite clicked → broadcast [________]
Click   when this sprite clicked → broadcast [________]
Path    when I receive [_____] → switch backdrop to [_____]
        → say [_________________] for ( ___ ) secs → ...
```

Test it: play each choice from the green flag. A click does nothing? Check that the message names match.
